Canadiana.org Bulletin: 2008 irregular publishing schedule

In 2008 the annual six-issue publishing cycle for the Canadiana.org Bulletin was temporarily suspended. As a result, Volume 8 contains five issues.

The individual 2008 Volume 8 issues of the Bulletin are accurately numbered and dated as numbers one through five for February, April, June, September and December.

However, we were unable to adapt the web page script that automatically generates the six-issue listing of the Bulletin for this non-standard publication year. The end-result is that the true September issue appears in the listing as August; and the page you are reading appears as October when in fact no October issue was published. Finally, the December Volume 8 Number 5 is listed as Volume 8 Number 6.

We are looking at the display issue and determining what course of action to take. Unfortunately, due to the automated way in which this listings page is generated, there is no simple solution, in spite of the fact that it looks as though there ought to be one.

Thank you for your patience.
